What is Nesstar?

- **Nesstar** is a system for data publishing and online analysis
- It consists of tools which enables data providers to disseminate their data on the web
- It allows users to search, browse and analyse the data online
Available data collections

- Most of the major UK Surveys can be explored with Nesstar

- These include the British Social Attitudes Survey, the Citizenship Survey, the Health Survey for England, the Quarterly Labour Force Survey, the Living Costs and Food Survey and many more

- The Discover pages will tell you if a particular data collection is available in Nesstar

TITLe DETAILS

Title: Health Survey for England, 2012
Alternative Title: HSE
Persistent identifier: 10.5255/UKDA-SN-7480-1
Series: Health Survey for England, 1991-
Depositor: NatCen Social Research
Principal Investigator(s): NatCen Social Research
Sponsor: Information Centre for Health and Social Care

SUBJECT CATEGORIES

Drug abuse, alcohol and smoking - Health
General - Health
Health services and medical care - Health
Mental health - Health
Nutrition - Health
Physical fitness and exercise - Health
Social attitudes and behaviour - Society and culture

ABSTRACT

The Health Survey for England (HSE) series is designed to monitor trends in the nation’s health. The study provides regular information that cannot be obtained from other sources on a range of aspects concerning the public’s health and many of the factors that affect health. The aims of the series are:
• to provide annual data about the nation’s health
• to estimate the proportion of people in England with specified health conditions
• to estimate the prevalence of certain risk factors associated with these conditions.

Dataset: Crime Survey for England and Wales, 2011-2012: Teaching Dataset

In general, frequencies and tables should be weighted before quoting percentages from them. To apply weights, select the weight ion and choose one or more weight variables to use. Users should consult the associated documentation for further information on whether, and how, to correctly weight the data.
Other functions in Nesstar: Graphs
Correlation and regression
Nesstar Help

• An online guide to using Nesstar is available at http://nesstar.com/help/4.0/webview/getting-started/getting-to-know-nesstar-webview.html
