

5 Safes of secure access to confidential data

Felix Ritchie

Bristol Economic Analysis

University of the West of England

Safe projects: Introduction

Administrative Data
Research Network

UK Data Service

HM Revenue
& Customs

Office for
National Statistics

What makes a safe project?

- Not just about legality
 - Perceptions matter eg care.data
 - Ethics matter eg Harvard Facebook case
 - Value for data providers matters eg GDP analysis
 - Institutions matter eg
- None of these are black-and-white (especially law)

Things to think about

- Upcoming exercise: be prepared to discuss
 - what kind of research are you expecting?
 - what makes a good and bad project?
- Next:
 - Tony on a the multi-datasource approval process in ONS
 - John on the Administrative Data Research Network model
 - Manpreet on HMRC solutions to a very specific law
 - Sarah on making service requests work at the MoJ
 - Arne on specific rules for health data
 - Louise on project tracking and identifying good projects
