Pros and cons of reusing data

Pros	Cons
datasets impossible to create	do not have insider understanding of data and data collection
cost effective	effort to get to know the data
ethical issues about data collection dealt with	ethical issues about data use still apply (limit access to sensitive data)
do not need to re-contact data subjects	data may not match research question
reuse data used by others to make claims	cannot extend studies

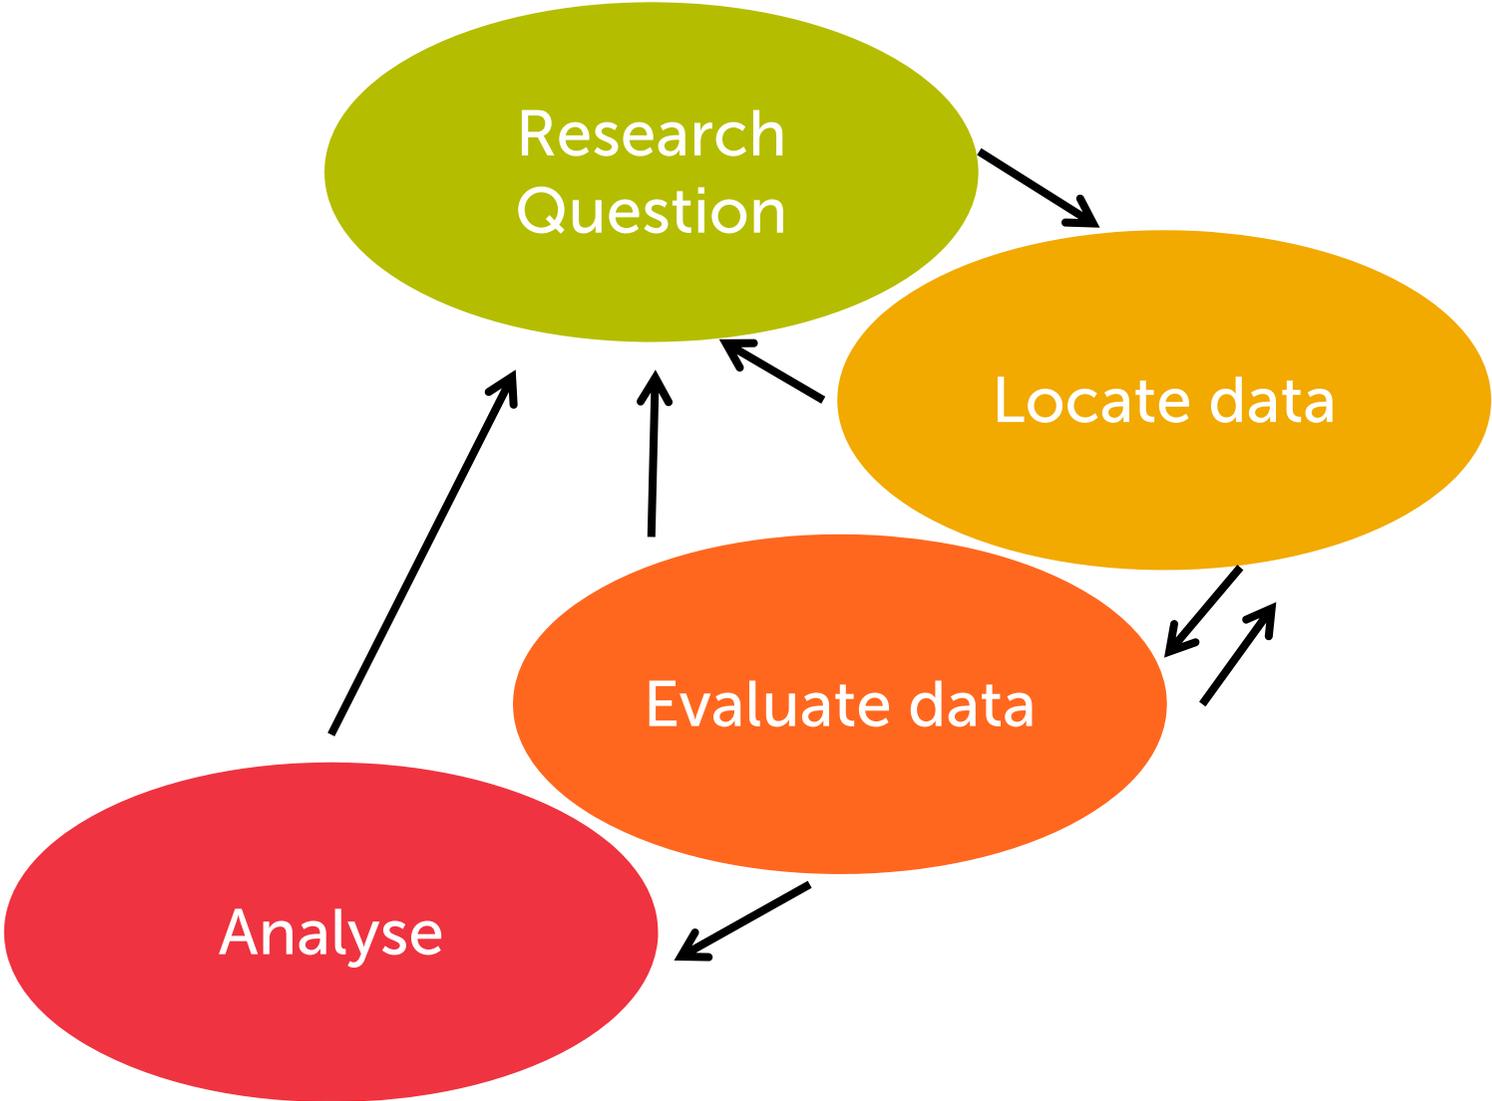

Researchers reusing data need to:

1. make effort to understand the data
2. be pragmatic about whether data are good enough for your purpose

Research plan

Making sense of your data

To understand the meaning of the data, and to evaluate suitability for your research question

You must understand

- exactly what information was collected
- from whom
- when and where

And

- what has been done to the resulting data before being archived?

DOCUMENTATION

Quantitative data

- Case study
- What data is available?
- What sorts of documentation are available?
- Key issues
 - Who was asked what?
 - What was done with the data after collection?
 - Sampling

Case Study: Crime Survey for England and Wales (formerly British Crime Survey)

- gives crime statistics independent from reporting to the police
- annual survey (conducted throughout the year)
- n≈35,000 individuals aged 16+ and 3,000 aged 10-15
- asks about crime experienced in last year
- data stored as individual-level anonymous records
- different access conditions for more sensitive data

Case Study:

Re-use by Hind Khalifeh and colleagues

Data issues:

- British Crime Survey 2009/10
- special licence data
- n = 46,398 adults 16+
- 9,037 had at least one limiting disability
- complex sampling – dealt with using statistical software (STATA)

Findings :

- adjusted for age, sex, socio-economic characteristics
- disability increases risk of experiencing violence
- levels of victimisation highest amongst those with mental health problems
- estimated 116,000 victims of violence attributable to disability

Quantitative data by type of analysis

Type of analysis	Type of data
Individuals, families, households, businesses : one point in time	Cross-sectional surveys (e.g. Time Use Survey) and census microdata
Individuals, families, households, businesses : multiple points in time	Repeated cross-sections (e.g. different years of Crime Survey for England and Wales, Labour Force Survey)
Individuals, families, households: over time	Longitudinal data (e.g. Understanding Society)
Small geographic areas	Census aggregate data, flow data
Comparing countries (over time)	International time series (e.g. World Bank Indicators)

service

Where, when and why?

- Start with catalogue record
 - Date & Geographic coverage is in the catalogue record for most studies
 - Access to user guide or technical report for more information

TITLE DETAILS

SN: 7500
Title: British Social Attitudes Survey, 2013
Alternative title: BSA
Persistent identifier: 10.5255/UKDA-SN.7500.1

COVERAGE, UNIVERSE, METHODOLOGY

Dates of fieldwork: June 2013 - November 2013

Country: Great Britain

Spatial units: Countries
Government Office Regions

Observation units: Individuals

Kind of data: Numeric data
Individual (micro) level

Universe: National
Adults
Adults (18 and over) living in private households in Great Britain (excluding the 'crofting counties' north of Caledonian Canal).

Time dimensions: Repeated cross-sectional study
The BSA survey is conducted annually.

Sampling procedures: Multi-stage stratified random sample
See documentation for each BSA year for full details.

Number of units: 3,244 cases

Who was asked what...

FLEX10
Some people have special working hours arrangements that vary daily or weekly.
In your (main) job is your agreed working arrangement any of the following...
Code up to 3

- 1 flexitime (flexible working hours),
- 2 an annualised hours contract,
- 3 term-time working,
- 4 job sharing,
- 5 a nine-day fortnight,
- 6 a four-and-a-half day week,
- 7 zero hours contract,
- 8 on-call working, or
- 9 none of these?

ONS ✓ **GOV** ✓ **SPL** ✓ **EUL** ✓

Applies if in work during reference week
IF (Wrking=Yes) OR (JbAway=Yes) OR (OwnBus=Yes) OR (RelBus=Yes)
OR (TYPSC12=1,2,3,5,8) On a government training scheme considered as employment
OR ((TYPSC12=9) AND (YTETJB=Yes)) OR (YTETJB=Yes) Doing paid work in addition to this particular government training scheme

**UK
W1/EQ
MAIN
AW/AJ and OD
RUNNING PROMPT**

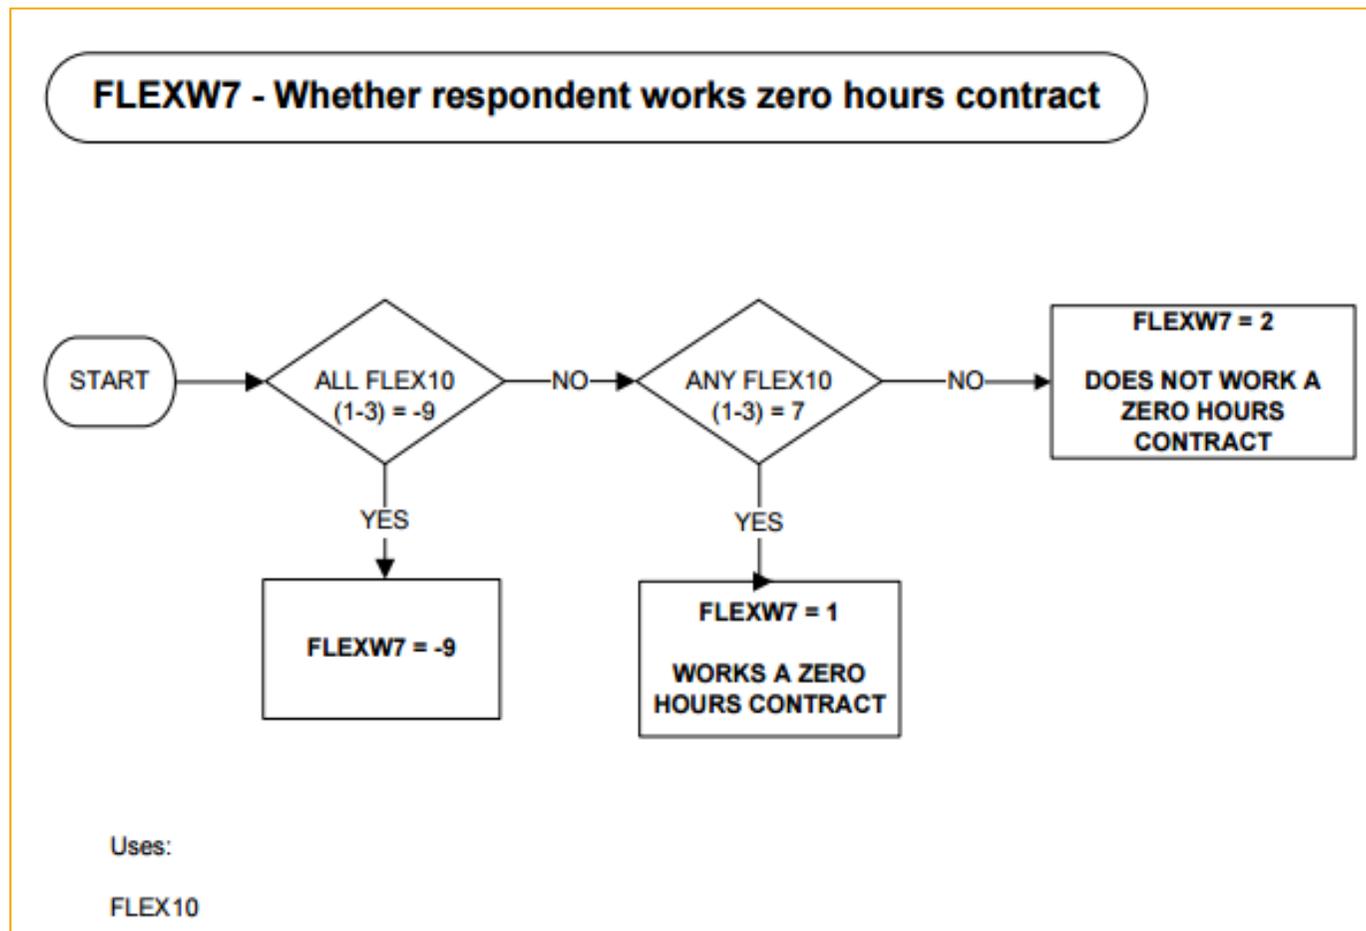

In addition to who was in the sample...

- Computer Aided Interviewing (CAI) makes it easy to send respondents through the questionnaire by different routes
- Many questions may only be applicable to some of the sample

And what was done with data afterwards?

- derived variables are created from the 'raw' data

Sampling considerations

- generally surveys are based on samples
- ask 'Is the sample representative?'
 - who is included ?
 - do you need to apply a weight to make the data representative?
 - response rate and bias
- do you have enough cases to make a precise estimate?
 - Important for small sub-populations

Tip: UK Data Service has guides to: [Survey weights](#) and [Complex sampling](#)

Many ways of re-using data

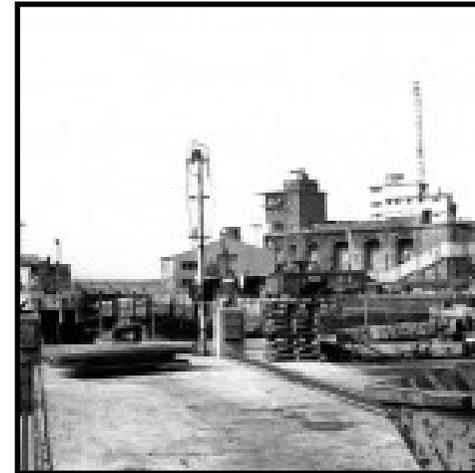

- Description
 - Literature review with data
 - See more data, not limited to published extracts
- Research design and methodological advancement
 - Study sampling, data collection methods, topics guides
 - Compare original interview schedule questions actually asked in the interview
- Reanalysis – asking a research question very different to the original research
 - Very different – comparative keyword analysis of illness narratives Seale and Charteris-Black (2008)
 - “Similar” topics, but with different focus (Bornat et al. 2012)
- Learning and Teaching (Haynes and Jones 2012)

SN 4867: **School Leavers Study**

Principal investigator: Ray Pahl

In 1978, teachers at a comprehensive school on the Isle of Sheppey were asked to set an essay about 10 days before pupils were due to leave school. The essay asked students to imagine that they were nearing the end of their life, and that something had made them think back to the time when they left school. They were then asked to write an imaginary account of their life over the next 30 or 40 years.

School Leavers Re-Study: Imagining the Future

Re-users: Graham Crow and Dawn Lyon

UK Data Service

School Leavers Re-Study

Essay instructions 2010: Imagining the Future:

I want you to imagine that you are towards the end of your life. Look back over your life and say what happened to you. Don't write a very exaggerated story, just tell the straightforward story of your life as it might really be. Of course you cannot know what is going to happen to you, but you can describe the sort of thing that could happen if things go as you expect or hope. Spread your story over your whole life from the time of leaving school. Continue on another sheet as necessary.

Sheppey: Essay 30
Group: Boys

My Past

I was sitting in front of the fire smoking my pipe, just thinking of the past. I was nearly seventeen when I left school, I had an apprenticeship in the Tudor Glass, an electrical apprenticeship lasting four years, I served my four years and got my diploma for an electrical engineer. I was now twenty and courting a rearly lovely girl. I had to work in London in my next job and came back home every weekend. Jobs were scarce so you had to take what you can get, I didn't want to go to London,

UK Data Service

Living and Working on Sheppey

1978: 141 essays (89 boys and 52 girls)

‘Living without a job: how school leavers see the future’ published in *New Society* in 1978 (2 November, pp. 259-62).

2009-10: The exercise was repeated by the Living and Working on Sheppey project and 110 essays (55 boys and 55 girls) were gathered from school pupils and members of youth groups on the Isle of Sheppey to compare to the earlier ones.

Together, these two sets of essays shed light on the aspirations of Sheppey’s young people (and young people more generally) and cover a range of topics including

- Health
- Education
- Career
- Family and leisure

1978 Mundane & grounded jobs; gradual career progression; periods of unemployment.	2010 Well-paid, instantaneous jobs; choice but uncertainty; influence of celebrity culture.
<p>"It was hard finding a job, I failed a few chances, but eventually got what I wanted locally, a craft apprenticeship." (Essay 27, male)</p>	<p>"I could not decide what to do. Then it came across my mind that I should be a body builder, and be good enough to enter the Mr Olympia contest. After that I went to an athletics club, within a few months I was scouted for the Olympics for the 200 metre sprint." (Essay 10, male)</p>
<p>"I was on the dole for six months after leaving school, until I got a job in a garage." (Essay 42, male)</p>	<p>"I was 20 now living the dream I had a amazing band...I had toured the world 3 times sold 4 million records." (Essay 30, male)</p>
<p>"When we found a house it was a semi-detached in Sittingbourne. I wanted to live in Italy but that was asking for too much." (Essay 56, male)</p>	<p>"I arrive at my 3-bedroom luxury villa; I land my helicopter on my own heli-pad and walk inside. I grab my keys and jump in my Bentley Continental GTS." (Essay 40, male)</p>
<p>"I longed for something exciting and challenging. But yet again I had to settle for second best. I began working in a large clothes factory." (Essay 104, female)</p>	<p>"In my future I want to become either: a dance teacher, hairdresser, or a Professional Show Jumper/horse rider. If I do become a dancer my dream would be to dance for Beyoncé or someone really famous." (Essay 61, female)</p>

Living and Working on Sheppey

Living and Working on Sheppey

Welcome to the Living and Working on Sheppey: Past, Present and Future project website.

Living and Working on Sheppey explores the recent history and changes in working lives on Sheppey in the last decades of the 20th century and into the 21st. It concentrates on the period since the closure of the dockyard at Sheerness in 1960.

The site contains **materials from older people and their memories of work** in or around the dockyard and everyday life in Blue Town, the area of Sheerness closed to the dockyard. You can listen to clips of these interviews on different themes including the closure of the Dockyard, various trades, and changes in family life across different generations, and you can read the interviews in full (you need to register to do that).

You can read and listen to **short essays written by young people** in 2009-10 on what they imagine their futures have in store for them. They talk about their hopes and aspirations for their working lives, families, and travel as well as some of the difficulties they foresee.

You can watch the **two videos made by the artists, Tea**, as part of the Living and Working on Sheppey project. In 'Back and Forth on High Street Blue Town' you can see images of Blue Town High Street past, present – and future! And you can hear older people's memories of everyday life on the High Street through the twentieth century. In 'Sheerness Port', you can go on a journey around the site of the former Dockyard today.

The Living and Working on Sheppey project was funded by the South East Coastal Communities Programme from 2009 to 2011. See Peter Hatton and Jenny Hurkett and discuss the project, the Blue Town Heritage Centre and the Isle of Sheppey in the video clip below.

Getting started

- Orient yourself to the original research project
 - Documentation and metadata
- Understand the structure of the original data
 - Contexts – at 3 levels
 - Sampling and recruitment
- Become familiar with the project data as a whole
 - Logic of subsampling if volume prohibits reading it all
 - Both inductive and deductive strategies can work

Reusing qualitative data

"A unique opportunity to study the raw materials of the recent or more distant past"

Reuse guide Reuse articles Teaching secondary analysis

SHARE ↗

Since the mid-1990s we have witnessed a growing body of knowledge and practical guidance on reusing qualitative data, sparked in the UK by the funding of Qualidata by the ESRC. We provide some insight into the ethical, methodological and epistemological issues, offer practical ways to get started, and showcase scholars' and teachers' creative use of secondary data.

RESOURCES ON REUSING QUALITATIVE DATA

Our [short guide](#) on reusing qualitative data

A [bibliography](#) of special collections and important articles on both reusing and sharing

<http://ukdataservice.ac.uk/use-data/secondary-analysis/reusing-qualitative-data.aspx>

Find data: Key data and search in *Discover*

The screenshot shows the 'Key data' page on the UK Data Service website. The page title is 'Key data' and the subtitle is 'Browse our most popular datasets, by data type.' Below this, there is a grid of data types: UK surveys, Cross-national surveys, Longitudinal studies, International macrodata, Business microdata, and Qualitative / mixed methods. The 'Qualitative / mixed methods' category is highlighted. Below the grid, there is a paragraph explaining that qualitative data is non-numeric information, such as in-depth transcripts, diaries, anthropological field notes, answers to questions, audio-visual recordings and images. Mixed methods combine qualitative data with numeric data. There are two bullet points: 'Discover qualitative or mixed methods data' and 'Discover case studies relating to qualitative or mixed methods'. Below this, there are two sections: 'Affluent Worker in the Class Structure' and 'Family Life and Work Experience Before 1918', each with a brief description of the study.

<http://ukdataservice.ac.uk/get-data/key-data/qualitative-and-mixed-methods-data.aspx>

The screenshot shows the 'Discover' search page on the UK Data Service website. The page title is 'Discover' and the subtitle is 'Search and browse our data collections, support guides, case studies'. Below this, there is a search bar with the text 'food'. To the right of the search bar are buttons for 'Reset filters', 'Clear search', and 'Auto-complete'. Below the search bar, there are filters for 'Type', 'Subject', 'Date', and 'Data type'. The 'Data type' filter is expanded, showing a list of data types with checkboxes: 'Qualitative and mixed methods data (58)', 'UK Survey data (559)', 'Cohort and longitudinal studies (106)', 'Cross-national survey data (52)', and 'Time series (45)'. Below the filters, there is a 'Results per page' dropdown set to '10' and a 'Displaying 1-10 of 58 results' message. The search results are displayed as a list of items, each with a 'G' icon, a title, a description, and a 'Full record...' link. The first result is 'SN 6295 Managing Food Chain Risks, 2006-2007' by Shepherd, R., University of Surrey. Department of Psychology. The second result is 'SN 6599 Food Practices in Residential Care, 2007-2008' by Punch, S., University of Stirling. Department of Applied Social Science.

INTERVIEW TRANSCRIPT

R: 149 Lee Gate, Harwood, Bolton.

I: [And your marital status? You're a widow, are you?](#)

D: Yes

Create citation

- R:** Oh yes, that was done. The Maypole dances.
- I:** [Where did they have the Maypole?](#)
- R:** Well of course I remember St. Osyth Priory - I lived just inside St. Osyth then you see, my father and mother moved from Angers Green to - I told you about the barracks - we moved there when I was - not more than about two I suppose.
- I:** [And you lived on there for quite a while didn't you?](#)
- R:** I lived there 'til I got married. Yes.
- I:** [Why did they make that move?](#)
- R:** Well, of course they moved - lived in a house at Angers Green, I don't know who that belonged to but then of course as these barrack cottages became vacant I mean the farmer usually put his men in them you see. That was why my father moved 'cos-;
- I:** [It wasn't because he changed his employer?](#)
- R:** Oh no, the house went with the job you see.
- I:** [And at St. Osyth in Priory they used to have a Mayday do did they?](#)
- R:** Oh yes. Well they had - a lot of big do's there when I was a kid, I mean, I belonged to the Sunday school, I used to have all their treats there - their summer treats you know. And of course the woman then who had it - was a very rich woman you see those days, I mean they had about seventeen gardeners and - and seventeen or eighteen indoor staff.
